

Optimal usage and maximum benefit of toolstar[®]testLX

What is toolstar®testLX?

**The professional diagnostic-software
to find permanent and intermittent failures in a PC**

- in a fast and efficient way
- with detailed test-reports and certificates with your brand

Why?

- it's selfbooting and independent of the operating system
- it's configurable for your individual requirements
- needs only max 3 minutes of your time
- it's completely automatable

It's the flagship of the toolstar®diagnostic-family.

Whome is toolstar®testLX made for?

Everyone who is responsible for PCs working!

- PC-Shops and Repair-Center
- System-Administrators
- PC-Health-Services
- Manufacturers
- Refurbisher and Remarketer of used PCs
- etc.

**Everyone who has to find failures
or has to proof, that a PC is without any failure.**

Which systems can be tested with toolstar®testLX?

Every PC-based system!

- PCs and Notebooks
- Industrial PCs (IPCs)
- Server
- PC-tablets

And also all PC-based machines like

- cash register
- manufacturing control
- etc.
- sensor control
- X-ray machines

Only one single requirement:

The system has to be X86/32-64 compatible and must be able to boot an external operating system.

Which operating systems are supported by toolstar[®]testLX?

Every!

**toolstar[®]testLX is selfbooting
and works independent of the installed operating system!**

Windows, Windows-Server, MAC-OS-X, Linux (any distribution), embedded OSs, DOS, Chrome-OS, BeOS, OS/2, Open-Enterprise-Server, BSD, Novell-NetWare, Prologue, etc. ... OR: no installed operating-system

You always can work with toolstar[®]testLX!

How can I start toolstar[®]testLX?

You can boot toolstar[®]testLX from every bootable media!

toolstar[®]testLX is delivered on a bootable USB-Stick and with an DVD-Image also.

For example you can boot from

- USB-Stick
- HDD
- etc.
- DVD
- SSD
- network (PXE)
- any Flash-Drive

What are my main benefits of using toolstar®testLX?

- All tests in one tool
- Never again “try and error”
- Proof of work and quality with your test-reports and logo
- Individual customization to your requirements
- Audit + finding the failures + wiping + reports and certificates in one single process
- Whole process needs only max. 3 minutes of your personal time
- **You will save a lot of time and money!**

3 Minutes net!

- ✓ Complete PC-testing and finding failures
- ✓ All system information with serial-numbers
- ✓ Optional wiping of all connected drives
- ✓ Testreports and wipe-certificates with your brand

How can I achieve “3 minutes net”?

- => Use the automatically starting BurnIn-Tests!**
(Your individual designed test-combination)
- => Use it as soon as possible, before testing manually!**
- => Use the automatically generated test-reports!**

Plug in the USB-Stick – switch on the PC – GO AWAY!

– do the other work you have to do –

and come back when all tests are finished and results are shown and stored!
